Professional Summary

UI/UX Designer with **3.6 years** of experience designing intuitive interfaces for AI-powered products, SaaS platforms, and data-rich dashboards. Experienced in taking ideas from user research and wireframes to high-fidelity UI, interactive prototypes, and scalable design systems. Designed AI copilot experiences that contributed to a 20% increase in leads. Actively use AI tools such as Claude, Figma AI, and Lovable to prototype faster and test more ideas.

Core Expertise

AI Experience Design: Human-AI Interaction, AI Copilots, Conversational UX, Intelligent Workflows, AI-Assisted Dashboards, Responsible AI Design

Product Design: End-to-End UX/UI, Rapid Prototyping, Interaction Design, User Flows, Wireframing, Journey Mapping, A/B Test Design, Usability Testing, Discovery Research, Responsive Design, Design-to-Development Handoff

Design Systems and Accessibility: Component Libraries, Reusable UI Patterns, Variants, Auto Layout, WCAG 2.1

AI-Assisted Workflows: Claude, Figma AI, Figma Make, Lovable, Google Gemini

Tools: Figma, FigJam, Framer, Sketch, ProtoPie, Adobe Creative Suite, LottieFiles, Hotjar, Clarity, Brevo

Front-end Familiarity: HTML5, CSS3, Responsive Design, Git/GitHub

Experience

Lyzzr AI

April 2026 – June 2026

UI Designer – Member of Technical Staff, Bengaluru

- Redesigned the **Cortex AI Copilot** platform end to end, building its **design system** and component library so AI chat, knowledge base, research, and tools share one consistent experience.
- Designed an **AI conversational commerce platform** from discovery and personalized recommendations to checkout and order tracking, turning a multi-step shopping journey into one guided conversation.
- Created an **AI-assisted support dashboard** that brings tickets, orders, and AI conversations into one view, so agents can resolve issues without switching tools.

JobTwine

May 2025 – April 2026

UI/UX Designer, Bengaluru

- Led design of **AI-powered hiring workflows**, including resume screening, AI interviewing, recruiter dashboards, and candidate experience, making complex AI steps clear for recruiters and candidates.
- Designed AI copilot and OTP-based self-demo flows for self-serve exploration, contributing to a **20% increase in leads**.
- Built an accessible design system of **30+ reusable components**, keeping product design consistent and speeding up delivery across workflows.
- Redesigned recruiter dashboards with clearer hierarchy and flows, making daily review work easier to scan.
- Partnered with Product and Engineering in sprints to ship designs and created **A/B test variants** for key flows.

Simpliaxis

October 2023 – April 2025

Visual Designer, Bengaluru

- Redesigned the EdTech website's structure, visual hierarchy, and responsive journeys, lifting **engagement by 22%** and cutting **bounce rate by 17%**.
- Raised **course conversion by 12%** and grew **leads by 15–20%** with data-driven landing pages.
- Created marketing creatives in Figma and designed **SEO-friendly page structures** for course landing pages.

JobTwine

January 2023 – September 2023

UX Intern, Bengaluru

- Designed low- to high-fidelity wireframes for dashboards and web applications in Figma.
- Audited interfaces for UX inconsistencies and aligned them with the design system and reusable UI patterns.
- Supported usability testing and turned findings into iterative design improvements.

Certifications

- Foundations of User Experience (UX) Design – Coursera (March 2023)
- Google UX Design Professional Certificate – Coursera (April 2023)

Education

Master of Computer Applications (MCA), MIT, Manipal

August 2021 – September 2023

Bachelor of Computer Applications (BCA), VVIT, Purnea

August 2017 – September 2020
